## About us

Prelia Biotech Group Sdn. Bhd. serves as the strategic headquarters and global commercial hub for a certified Chinese manufacturing group specialising in in-vitro diagnostic (IVD) solutions. Backed by over 15 years of R&D expertise and ISO 13485, CE, and NMPA-certified production facilities, we deliver high-quality, cost-effective diagnostic products to healthcare providers worldwide.

Based in Malaysia, Prelia Biotech provides centralised coordination, localised support, and efficient distribution across Southeast Asia, Africa, the Middle East, and Latin America. Driven by integrity, quality, and innovation, we are committed to expanding access to reliable diagnostics globally.

## CERTIFICATES

The company's products have been approved by the Ministry of Commerce and CCCMHPIE White List.

Obtained the national high-tech enterprise certificate in 2019.

The company passed ISO13485 certification in 2016.

# Fertility Test

## One Step HCG Pregnancy Test Kit

The hCG Rapid Test is a rapid chromatographic immunoassay, used for early detecting human chorionic gonadotropin (hCG) in human urine to indicate pregnancy.

ACCURATE FAST EASY

## Simple operation Quick result

Accuracy: 99.96%.  
Sensitivity: 25mIU/mL, 10mIU/mL.  
Rapid: Result is readable as quick as in 1 minute.  
Diverse Specifications: Strip, cassette, midstream.  
Specimen: Urine only---widely used for self-testing.  
Urine/serum---more sensitive & accurate.

ACCURATE FAST EASY

## ABNORMAL PREGNANCY TEST (Colloidal Gold)

Abnormal pregnancy test kit (Colloidal gold) is designed for the qualitative detection of human chorionic gonadotropin (intact hCG) and human chorionic gonadotropin-related protein (hCGRP) in urine. It is provided as an auxiliary means for clinical diagnosis of abnormal pregnancy risk assessment.

ACCURATE FAST EASY

## Weekly pregnancy test

Semi-quantitative hCG One-step Pregnancy Test (5 in 1 dipcard) is a self performing immunoassay designed for the qualitative determination of human chorionic gonadotropin (HCG) in urine for early detection of pregnancy. The test device is intended for self-testing.

ACCURATE FAST EASY

# Fertility Test

## LH Ovulation Test Kit

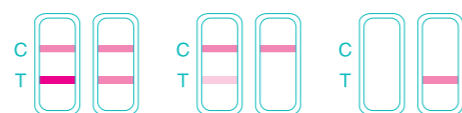

LH Ovulation Test is a complete system to help predict the time of ovulation and peak fertility. It is during this fertile time that pregnancy is most likely to occur. LH Ovulation Test detects the luteinizing hormone (LH) surge in urine, signaling that ovulation is likely to occur in the next 24-48 hours.

- Accuracy: 99.96%
- Sensitivity: 25mIU/mL.
- FAST: Results take only 3-8 minutes.
- Easy To Use: Without any instruments.
- Diverse Formats: Strip, Cassette, Midstream.

Try to collect urine at about the same time each day for the entire cycle. For best results, collect it between 10:00 am and 8:00 pm.

[positive] [negative] [invalid]

ACCURATE FAST EASY

## Digital Pregnancy & Ovulation Test

The Digital Pregnancy and Ovulation Test can test both ovulation and early pregnancy. It can test ovulation first and then test pregnancy to understand whether you are pregnant or not. The monitor can distinguish ovulation and pregnancy test automatically by insert the ovulation or pregnancy test stick. The test result will be given by the LCD display.

## FSH (Follicle-Stimulating Hormone) Test

FSH (Follicle-Stimulating Hormone) Test is used to detect FSH in the urine; this helps to check the function of the pituitary gland and check if hormone levels are normal. The test can be used to see if a woman has started the menopause. The product may also be used (along with other tests) to test for possible causes of both male and female infertility.

- Accuracy: 99%. Sensitivity: 25mIU/ mL.
- Rapid: Results take only 5-10 minutes.

## SPERM SP10 PROTEIN DETECTION DEVICE

# Infectious Diseases Test

## HBsAg Rapid Test Kit

The HBsAg Rapid Test is intended for the qualitative detection of Hepatitis B surface antigen (HBsAg) in human serum, plasma or whole blood, and is appropriate for a rapid, simple and accurate auxiliary diagnosis of HBV infection.

## H.pylori Ag Rapid Test

The H. pylori Ag Rapid Test is a lateral flow chromatographic immunoassay for the qualitative detection of H. pylori antigen in human fecal specimen. It is intended to be used by professionals as a screening test and as an aid in the diagnosis of infection with H. pylori.

## Typhoid IgG/IgM Combo Rapid Test

The Typhoid IgG/IgM Combo Rapid Test is a lateral flow immunoassay for the simultaneous detection and differentiation of anti-Salmonella typhi (S. typhi) IgG and IgM in human serum, plasma or whole blood. It is intended to be used by professionals as a screening test and as an aid in the diagnosis of infection with S. typhi.

## Malaria Pf/Pv Ag Rapid Test

The Malaria Pf/Pv Ag Rapid Test is a lateral flow chromatographic immunoassay for the simultaneous detection and differentiation of Plasmodium falciparum (Pf) and vivax (Pv) antigen in human blood specimen. This device is intended to be used as a screening test and as an aid in the diagnosis of infection with plasmodium.

## Dengue NS1 Ag-IgG/IgM Combo Rapid Test-Cassette

The Dengue NS1 Ag-IgG/IgM Combo Rapid Test detects IgG, IgM anti-dengue virus and circulating dengue antigen in one test within 25 minutes. The test is user friendly, without cumbersome laboratory equipment, and requires minimal staff trainings.

## HIV Ag/Ab 4th Gen. Rapid Test

The HIV Ag/Ab 4th Gen. Rapid Test is a lateral flow immunoassay for the qualitative detection of antibodies (IgG, IgM, IgA) to anti-HIV-1 (including O) and-2 virus and HIV-1 p24 antigen in human serum, plasma or whole blood.

# Resiratory Infectious Diseases Tests

## SARS-COV-2 Antigen Rapid Test

SARS-COV-2 Antigen Rapid Test is a test and provides a preliminary test result to aid in the diagnosis of infection with novel Coronavirus. This product is used for in vitro qualitative detection of the antigen of novel coronavirus in human nasopharyngeal swabs.

## SARS-COV-2 Antigen & Flu A/B Combo Rapid Test (Colloidal Gold)

The SARS-COV-2 Antigen test is used for in vitro qualitative detection of the antigen of novel coronavirus in human throat swabs or nasal swabs.

The Flu A/B rapid Test is a colloidal gold enhanced, rapid immunoassay for the qualitative detection of influenza A and influenza B viral nucleoprotein antigens. The test is intended for healthcare professional use only.

## Monkeypox Virus Antigen Rapid Test

The Monkeypox Virus Antigen Rapid Test is a colloidal gold immunoassay (CGIA) for qualitative detection of monkeypox virus antigen in human whole blood, serum, plasma or rash exudate.

Resiratory Infectious Diseases Tests				
Product name	Specimen	Format	Package	Strip Width
SARS-COV-2 Antigen Rapid Test	Nasal / Throat Swab	Cassette	1/25 Tests/kit	3 mm

# Drug OF Abuse Tests

## Drugs of Abuse Test

Drugs of Abuse Test is a rapid one step test for the qualitative detection of different drug metabolites in human urine. Most common type of drug screening. Widely used in pre-employment screening, university enrollment screening, routine workplace testing, or court-mandated compliance.

Cut-off levels comply with international standards 3-8 minutes to read results

## Multi-Drug Test Panel

Permits multi determinations in one panel. Many different combinations are available.

Drug OF Abuse Tests				
Drug Name	Abbreviation	Cutoff Level	Specimen	Format
Amphetamines	AMP	1000 ng/ml	Urine	Strip/cassette
Acetaminophen	ACE	5000 ng/ml	Urine	Strip/cassette
Barbiturates	BAR	300 ng/ml	Urine	Strip/cassette
Benzodiazepines	BZO	300 ng/ml	Urine	Strip/cassette
Buprenorphine	BUP	10 ng/ml	Urine	Strip/cassette
Cocaine	COC	300 ng/ml	Urine	Strip/cassette
Cotinine	COT	200 ng/ml	Urine	Strip/cassette

# HOME CARE SERIES

## GLUCOSE METER

- Code Free
- Automatic return strip
- Intelligent memory

## MESH NEBULIZER SERIES

Model: YM-3R9

Fine particles: large fog, fine atomized particles, particles can reach 1-5 m, drug absorption more fully  
 High speed: microporous spray tablets, atomization speed 0.2ml/min  
 Quieter: with piezoelectric components, quieter design with low noise  
 Flashing light: green light means normal operation, red light means no power or insufficient voltage  
 Energy-saving and environmental protection: skin-friendly and environment-friendly, the mask adopts PP(polypropylene) as the main material, without DEHP(plasticizer/plasticizer)

<b>Specification</b>	oscillation frequency: 100kHz ± 10% condensation rate: ≥ 0.25ml/min atomized particles: ≤ 5um medication flow rate: approx. 0.4ml/min volume: max. 10ml housing material: ABS operating conditions: temperature: +5°C - +40°C relative humidity: < 80% non-con-densing
<b>Mains connection</b>	10-240V, 50-60HZ, 0.15A
<b>Power</b>	DC5V/1000mA USB power adapter or 2* 1.5V (2 sets of 5 AA alkaline, no battery included)
<b>Dimension &amp; Weight</b>	45(w)*45(h)*100(L)mm 59*30*35cm/50PCS/12.8KG 278g(without batteries)

Model: M201

### Feature

- Small and portable
- Ultrafine Particles
- Dual Power Supply
- Little Drug Residual
- prevent dry burn
- Low Noise

### Specification

Nebulizing rate: ≥ 0.25ml/min	Noise : ≤ 50db
MMAD : 3.5µm	Medication Capacity : 10ml
Input : DC 5V/3V	Nebulizer weight : About 70g
packing weight : About 9.9Kg	Machine size : 38*32*105
Color box size : 129*101*52	CTN size : 530*275*280
quantity packed : 50	Color : Gray, Green, Orange, Blue
